

Implementation of Legal Theory by Notary in Exercise Its Authority

Mochammed Dzakhy Ariefuddin Dwi Putranda¹ and Ngadino²

Abstract. The purpose of this study was to: 1) To find out what a notary authority. 2) To determine and analyze the correlation between the Notary Law Theory to exercise its authority.

Based on the results of data analysis concluded that: 1) Based on the duties and authority of Notary asserted in UUJN, split into three areas of authority ie general authority (Article 15 paragraph 1 UUJN), a special authority (Article 15 paragraph 2 UUJN), the authority which is to be determined (Article 15, paragraph 3 UUJN), 2) Conditions Referring to the basic acquisition of authority, that the notary in a deed relating to land comes from legislation that is under the authority attribution means authorizing the new government by a provision in the legislation which in this case is Notary Law, so authority obtained through the attribution is a genuine authority.

Keywords: Theory of Law; Notary; Authorities.

1. Introduction

Notary has been known in our country, since the Dutch colonized Indonesia, because the notary is an institution that is already known in their lives in their own homeland.³ The existence of the Notaries in Indonesia is always associated with the presence of the faculty of law, it is evident from the result in the institutions Notary everything from law school with a specialty Notary Education Program Specialist or the current Master of Notary.⁴

The existence of the Notary appear present in our country, because to achieve certainty and legal protection for members of the public. Given in the area of private law (civil), the State put Notary as a public official authorities have in terms of making authentic act, for the sake of proof or evidence. The regulation of the Notary office has begun regulated Notaries in Reglement op Het Nederlands Indie (stbl.1860: 3)⁵, In 2004 diundangkanlah Act No. 30 of 2004 concerning Notary. The setting positions Notary more refined with the laws of the Republic of Indonesia Number 2 of 2014 on the Amendment of Act No. 30 of 2004 concerning Notary, which was approved on 17 January 2014 by the Parliament of the Republic of Indonesia (DPR-RI).

⁵ Notaries in Reglement op Het Nederlands Indie (stbl.1860: 3) is the regulatory reform of the Notary office in Indonesia in the days of the Dutch East Indies, this regulation is the replacement of the Instruction voor de Notarissen Residerende in Ambit in Nederlands Indie.

The position of a notary in Indonesia harder than the Notary in the Netherlands. Notary in Indonesia face a subscription (client)⁶ many kinds of population groups and each of them has its own customs. And of that a Notary is obliged to provide legal counseling beforehand that is easily understood by the subscription in the face of the Notary.⁷

Notary Public Officials which is the only one authorized to make an authentic deed regarding all of making agreements and determination required by the General Regulation or by the concerned desired to be stated in an authentic deed, ensure certainty the date, save the deed and give Grosse⁸, Copies and excerpts, all along the deed was by a general rule not also be assigned or excluded to the official or other person.⁹ While the changes in the Notary Law, gives the sense that the notary is a public official who is authorized to make the authentic act and have more authority as referred to in this Act or under other legislation.¹⁰ This means that the Notary deed relates directly to the value of the dignity of the parties that promise. The promises that have been stated in the deed reflects a genuine desire presented by the parties. Legal needs in the community can be seen by the increasing number of forms of agreements set forth in a notarial deed, which Notary is a public official authorized to make an authentic deed and other authorities as stipulated in the legislation.¹¹ The authority makes this an authentic deed executed by the Notary only as far as the manufacture of certain authentic deed is not reserved for other public officials.¹² It can be concluded that the Notary is the only public official who has the authority.

According to Djoko Soepadmo¹³, an authentic deed is a deed made in the prescribed form or according to the rules in the legislation by or before public authorities to the place where the deed was made,¹⁴ while according to Husni Thamrin, authentic deed is a deed made by an officer who is authorized to do so by the authorities in accordance with the conditions set, either with or without the assistance of the parties concerned, which records what is sought to be loaded therein by the parties concerned, the authentic act contains information that menerangkan officials about what he did or

seen dihadapannya.¹⁵ Article 1868 Book of Civil Law states that "the authentic act is an act which is in the form prescribed by law, made by or in the presence of public servants in power to it in a place where the deed made."¹⁶ In line with the sound of article 1868 Book of Civil Law by Habib Adjie, that Article 1868 of the Civil Code imposes limits are elements of what is meant by authentic act, namely¹⁷ :

- It shall be made by the (door) or in the presence of (ten overstaan) a General Officer.
- It shall be in the form prescribed by law.
- Public Servants (Public Officers) by or before whom the deed was made, should have the authority to make such deed.

Authentic act gives a perfect evidence between the parties and the heirs and have binding force. Perfect means an authentic act is sufficient to prove an event or situation without the need for the addition of other evidence. Tying means everything is included in the certificate must be trusted and considered really happened, so if there are those who deny or doubt the truth then the party is exactly what should prove a doubt and untruth of the authentic deed.¹⁸ One more requirement that must be added to the authentic act in it has included all the elements of written evidence, witnesses, suspicions, recognition, and vows.¹⁹ Knowing the importance of the task and the position of a notary in the midst of society and the strength of evidence of an authentic deed made, it can be said that the office of Notary Public is an office of trust. Position of the trust law and society requires someone who is a Notary is responsible for implementing these beliefs with the best and uphold legal ethics, dignity and nobility of office.

Notaries often in practice involved with lawsuits either as a witness or as a suspect.²⁰ Involvement Notaries in lawsuits due to an error in deed made, either because of errors Notary itself nor the fault of the parties or one of the parties does not give any information or document the actual (not the good faith of the parties or one party) or have there is no agreement between the Notary by one of the parties who cause harm to others. Dealing with the deed he had done, the Notary must be held accountable for their criminal cause harm to the parties or one party.²¹ Notary basically can not be held accountable for criminal, because the notary is accountable only to the formal deed.²² Related to the allegations because the case law made by a Notary, in Article 66 paragraph 1 of Act No. 30 of 2004 concerning Notary mention that investigator, prosecutor, or judge, in making minuta deed and calling Notary, subject to approval of

the Assembly Regional Supervising (MPD).²³ Assembly Konstitusi Court (MK) on March 23, 2013 has granted the request for a judicial (judicial review) of Article 66 (paragraph (1) of Act No. 30 of 2004 concerning Notary filed by bro. Kant Kamal. Constitutional Court decision essentially cancel the phrase "with the consent of the Supervisory Council of Regions" in article tested.²⁴ By Decision No. MK No. 49 / PUU-X / 2012 dated March 23, 2013 the legal proceedings involving the examination of the Notary not require the approval of the Supervisory Council of Regions (MPD) again and the phrase NRI considered contrary to the Constitution of 1945 and does not have binding legal force.²⁵ In the trial and proceedings of the MOJ, this would mean that the decision is final and binding (final and binding).²⁶

The task of notaries provide assistance on creating an authentic deed. And thus, it is important for notaries to be able to understand the regulations stipulated by law so that the general public who do not know or do not understand the rule of law, can be understood correctly and not doing things that are against the law.²⁷ Certainty, order, and legal protection requires, among other things, that the traffic law in public life requires the existence of evidence which clearly define the rights and obligations of a person as a subject of law in society. Position based trust between the notary and the notary who use the services.²⁸ Clarity in making legislation, will minimize the occurrence of multiple interpretations, in other words a clear legislation to provide legal certainty and minimize the occurrence of disputes. Legal certainty is a state where a regulation is made and enacted exactly as set out clear and logical. Obviously in the sense that there are no norms obscurity or doubt (interpretations) and logical in the sense of becoming a system of norms the other norms that do not clash or conflict norm.²⁹ Legal certainty pointed to a clear law enforcement, remains, consistently and consequently, the implementation of which can not be influenced by circumstances subjective nature. Indicators of legal certainty in a country itself is the presence of clear legislation and legislation is implemented well by the judges and other judicial officers.³⁰ Based on the above, the authors are interested to do the writing with the title "Implementation Of Legal Theory By Notary In Exercise Its Authority".

The approach used in this study mainly is the approach normative, normative is legal research done by researching library materials or secondary data as the base material to be tested by conducting a search for rules and literature relating to the cases studied.

2. Results and Discussion

2.1. Authority theory

According to the practical Indonesian dictionary compiled by the AA. Waskito, said the authority has the right meaning and power that belongs to do something. The term authority can not be equated with the term affair because the authority can be interpreted as a right and obligation to execute one or more functions of management (setting, planning, organization, management and supervision) on a particular object that is handled by the government.³¹ Along with the main pillars of the State³² namely the principle of legality, based on this principle implies that government authority is derived from Regulation Legislation, meaning that the source of authority for the government is Regulation Legislation.³³ Power or authority is always there in every field of life, whether simple society especially in communities that have been developed.³⁴

- Attribution authority.

Indroharto found on attribution occurred granting authority by a new government or created a new authority.

- Delegation authority

In the delegation there was a delegation of authority existing body or administrative positions States that have the authority to rule attributive to the entity or other state administrative positions, so a delegation is always preceded by the presence of an attribution of authority.³⁵

- The authority's mandate

On the mandate was not discussed deliveries of authority, nor delegated, in terms of the mandate does not happen change authority whatsoever (at least in the sense of formal juridical), there is only the internal relations.

The terms of authority and the authority of the State Administrative Law there are differences in the views of some of the existing literature, conceptually term authority

is often called authority, or jurisdiction and terms *gezag* referred to the competence or authority of *bevoegdheid*.³⁶

2.2. Theory Application of Authority

The application of the law of his theory using the theory of authority, then when referring to the theory of "*Stufenbau Des Rechts*" by Hans Kelsen, the norms (including legal norms) it step-by-step and multi-layered meaning unity of norms is demonstrated by the fact that the establishment the norm that the more low-norms set by other, higher norms, which are determined by other norms making even higher and that regressus (a series of law-making process) is terminated by a basic norm of the highest, as the basis for the highest of the overall validity of the legal order, establish an order of this law.³⁷

Hans Kelsen's theory also affects the legislation system in Indonesia, the MPR Decree No. XX / MPR / 1996 jo MPR No. III / MPR / 2000 jo Act No. 10 of 2004 jo Act No. 12 of 2011, concerning the Establishment of Legislation Article 7 (1), namely:

(1) Types and hierarchy of legislation consists of:

- 1945 Constitution (Constitution of the Republic of Indonesia of 1945);
- MPR (People's Consultative Assembly Decree);
- Law / Government Regulation (Law / Government Regulation in Lieu of law);
- PP (Government Regulation);
- Presidential Decree (Presidential Decree);
- Provincial Regulation (Provincial Regulation); and
- Regulation of the Regency / City.

Associated with the source of authority possessed by the notary and PPAT, As mentioned Ateng Syarifudin³⁸ that the elements listed in the authority is 2, namely:

- The existence of formal authority;
- The power granted by law

3. Closing

3.1 Conclusion

Based on the research results can be concluded as follows:

- Based on the duties and authority of Notary asserted in UUJN, then Habib Adjie (2010: 78) divided into three areas of authority the public authority (Article 15 paragraph 1 UUJN), a special authority (Article 15 paragraph 2 UUJN), the authority which will be determined later (Article 15, paragraph 3 UUJN). The purpose of the public authority is authorized to make general deed-restricted as long as:
 - Not excluded the other officials stipulated by law.
 - Concerning the certificates must be made or authorized to make the authentic act on all deeds, agreements, and provisions required by law or desired by the person concerned.

³⁶SF. Marbun, 2017, *Peradilan Administrasi Negara dan Upaya Administrasi di Indonesia*, Liberty, Yogyakarta, p. 153.

³⁷Hans Kelsen, *Teori Umum Tentang Hukum dan Negara*, (Bandung: Nusa Media, 2014), p. 179.

³⁸ Ateng Syafrudin, "Menuju Penyelenggaraan Pemerintahan Negara yang Bersih dan bertanggung jawab", *Jurnal Pro Justisia* Edition IV (2010): 22.

- Regarding the legal subject (person or entity) for the benefit of whom the deed was made or desired by the stakeholders (Habib Adjie: *ibid*).
- Referring to the basic theory of law that exist in the Results and discussion as well as the acquisition of authority, that the notary in a deed relating to land comes from legislation that is under the authority attribution means authorizing the new government by a provision in the legislation that is in terms of this is UUJN, so the authority obtained through attribution is a genuine authority.

3.2 Suggestion

- For candidate new notary candidate should understand exactly what the duties and authority of the notary in order not entangled problems or cases
- Before performing his duties, the notary in the compulsory first understand what authority and how the legal theory of authority to avoid confusion and in default in its implementation in the future. For the notary candidate is required to understand the theory of law and Notary Law in the notary office before serving as a notary.
